

## Exclusive Service for ProTech IB Customers – Drain Inspections

ProTech IB is the only building inspection company to offer one stop shopping for a variety of specialized services in the building sciences field. Among those services are camera inspections of main sewer lines and French drains. With aging infrastructures these systems are often in poor condition or nearing failure, our technicians use state of the art equipment to inspect these drains from the inside and can pinpoint with accuracy issues that can lead to system failure before it happens. If caught in time, rehabilitation of the pipe is sometimes possible saving important costs and problems associated with excavation.
